## **Statement on Stockholm Convention on Persistent Organic Pollutants (POP)**

The Stockholm Convention on Persistent Organic Pollutants was adopted by the Conference of Plenipotentiaries on 22 May 2001 in Stockholm, Sweden.

The Convention entered into force on 17 May 2004.

The Stockholm Convention on Persistent Organic Pollutants is a global treaty to protect human health and the environment from chemicals that remain intact in the environment for long periods, become widely distributed geographically, accumulate in the fatty tissue of humans and wildlife, and have harmful impacts on human health or on the environment. As set out in Article 1, the objective of the Stockholm Convention is to protect human health and the environment from persistent organic pollutants.

Further information on POP chemicals can be found on the following link: - <http://chm.pops.int/Home>

Cambridge Electronic Industries Ltd. does not intentionally add any of these POP chemicals to its products during the production process nor does it knowingly resell any products containing POP chemicals.
