REACH Statement

Cambridge Electronic Industries Ltd recognises the following Registration, Evaluation, Authorisation and restriction of Chemical (REACH) regulations:

EU REACH EC 1907/2006

Turkey REACH

Korea REACH

They are designed to control Substances of Very High Concern (SVHC). The list is updated every 6 months.

By a self-assessment process, Cambridge Electronic Industries Ltd has evaluated its position in the REACH supply chain – Cambridge Electronic Industries Ltd is a typical “downstream user”. It does not place into the market raw chemicals nor devices which are intended to release chemicals as part of their normal function.

As a provider of articles into the market Cambridge Electronic Industries Ltd has identified its responsibilities within the REACH legislation as being associated with the supply of materials which may contain SVHC as detailed in the current candidate list.

The legislation obliges Cambridge Electronic Industries Ltd to notify its customers of any article containing such substances in excess of 0.1% of the article by weight and to produce a safety data sheet as and when required.

Customers requiring a Certificate of Conformance are to contact the sales team.
