

General Description

With a light weight construction and flat top surface this 12 GHz surface mount BNC Coaxial Connector is specifically designed to aid automated placement techniques universally adopted in volume production processes. This End Launch Surface Mounting BNC connector from Cambridge Electronic Industries facilitates transmission rates over a single channel of up to 12Gbits/s thus permitting significantly increased wiring densities.

This connector was formerly sold as:
C-SX-202 when supplied with AWB-S0-ZBN-0.50 and ANB-C2-ABN-2.50
