

12GHz BNC Coaxial Connectors

BNC Cable Terminated Socket for 12G Applications

Part Number XBT-1071-NGBA

Issue 1.0

General Description

Our range of 12GHz Precision BNC coaxial connectors are optimised for 4K/Quad HD and Ultra HD Broadcast applications and meeting the J11A CoaXPress specification. These high performance connectors allow you to achieve a 12GHz channel in one single connection. The BNC connectors are mateable with any standard BNC connector, but optimum performance is achieved when PCB mounted styles are interfaced with these Cambridge Connectors 12GHz BNC plugs, designed for use with in the BA cable group such as Belden 1855A and 4855R.

The XBT-1071-NGBA connector is a cable mounted BNC plug, which can be used with Belden 1855A and 4855R cables for 12G applications.
